Michele's favorite caramel is Peter's Caramel -- its smooth, creamy texture adds a decadent touch to your finished product, and is absolutely delicious!

- Just melt the caramel in a double boiler over hot water.
- Once the caramel is smooth, dip the apples.
- Let them cool a bit, then roll in nuts.
- Spin a layer of melted chocolate over it using a piping bag

## Variations

- Use colorful sprinkles instead of nuts.
- Used Pistachio<sup>®</sup> instead of peanuts
- Used colored candy melts for colorful spun chocolate
